Welcome Note

Dear Colleagues and Friends,

It is with great pleasure that we welcome you to the 12th Intercontinental Rhinoplasty Meeting, taking place in the heart of Zagreb, Croatia. This meeting continues our tradition of gathering the world's leading experts, passionate surgeons, and future innovators to explore the ever-evolving field of rhinoplasty and facial plastic surgery.

Over the course of three days, you will engage with distinguished international faculty, share experience, refine techniques, and gain deeper insight into both the art and science of nasal surgery. From primary to revision rhinoplasty, from structure to preservation, from innovation to timeless principles—our goal is to provide a comprehensive, collaborative, and practical learning experience.

What truly sets this meeting apart is the community. We come from different parts of the world, with different backgrounds and perspectives—but we share one mission: to improve outcomes for our patients by continuing to learn and grow together.

We hope you enjoy not only the rich scientific program but also the vibrant atmosphere of Zagreb—its culture, cuisine, and hospitality.

Thank you for being part of this journey. Let's shape the future of rhinoplasty, one nose at a time.

Warm regards!
Scientific directors,
Peter JFM Lohuis, Fazil Apaydin,
Carlos Pedroza and Boris Filipović
